

About DE WOODSTOK

Founded in 2012 by three Dutch climbers, deWoodstok began with a vision to innovate bouldering equipment. We transformed makeshift brushes – even used at world cups – into high-quality gear, becoming pioneers with **the first boulder brush on the market that was adjustable in angle** for better access. We continue to innovate by enhancing our products and refining our production processes, ensuring that our gear remains reasonably priced. Our **commitment to sustainability** includes using FSC-certified wood, bamboo, and local production. We **prioritize social responsibility** by producing our products in a local sheltered workshop, supporting people with disabilities. At deWoodstok, you can expect **exceptional service and affordable, premium products**, all while contributing to a positive impact on our environment and the climbing community.

DE WOODSTOK Products

SKU: DWS-10

Extendable bouldering brush XL

deWoodstok's extendable bouldering brush XL is the ideal solution for cleaning holds in bouldering gyms and at competitions. For many years, this product has proven itself in over a thousand bouldering gyms worldwide.

Features:

- Easy & quick angle adjustment for brushing holds in various positions
- A small and big brush designed for cleaning large slopers, small crimps, and pockets
- Sturdy design, suitable for intensive use in bouldering gyms
- Length-adjustable stick, long enough for 4.5m high bouldering walls (legal max)
- Premium boar hair brushes, backed by extensive bristle research
- Replaceable brushes with affordable 20-packs available
- Double the lifespan of the big brush by mounting it in reverse once one side is worn out
- Discounts available for orders of 5 or more pieces

Comparison to Our Standard Extendable Bouldering Brush

The extendable bouldering brush XL is designed to withstand intense indoor use. The telescopic stick is sturdier and longer than our standard edition, making it ideal for indoor environments. In contrast, the standard extendable bouldering brush is more lightweight and portable, making it better suited for outdoor use.

Worldwide Shipping

We ship our brushes to gyms around the globe. However, shipping the pole outside of Europe can be costly. That's why we designed our brush head with connector to fit standard telescopic poles with a 3/4"-5 threaded top, which are commonly available in the US, Canada,, Australia. and many more countries. If you are an overseas customer, we recommend ordering only our brush heads with the connector and using a locally available telescopic pole.

The Extendable Bouldering Brush XL includes:

- Telescopic stick XL
- Connector
- Brush head with big and small brush

Specifications

- SIZE: 1610-2660mm Length
- WEIGHT: 1245 grams
- MATERIAL:
 - Stick: Aluminum & Glass Fiber Reinforced Nylon
 - Connector: Glass Fiber Reinforced Nylon
 - Brush Head: Birch Plywood, Aluminum & Plastic
 - Brushes: Beech wood & Boar Hair

SKU: DWS-01

Extendable bouldering brush

deWoodstok's extendable bouldering brush is your perfect companion for cleaning boulders outdoors. For many years, this brush has been a familiar sight in Fontainebleau, Magic Wood, and many more bouldering areas worldwide.

Features:

- Easy and quick angle adjustment for brushing holds in various positions
- A small and big brush designed for cleaning large slopers, small crimps, and pockets
- Compact design, ideal for carrying in your crash pad
- Length-adjustable stick, long enough for almost any outdoor boulder
- Premium boar hair brushes, backed by extensive bristle research
- Replaceable brushes
- Double the lifespan of the big brush by mounting it in reverse once one side is worn out

Comparison to Our Extendable Bouldering Brush XL

The extendable bouldering brush is specifically designed for private outdoor use. Its telescopic stick is more compact and lighter than our XL edition, yet sturdy enough to be your reliable companion for years. In contrast, the extendable bouldering brush XL is heavier and longer, making it better suited for commercial indoor use.

Worldwide Shipping

We ship our brushes worldwide. However, shipping the pole outside of Europe can be costly. That's why we designed our brush head with a connector to fit standard telescopic poles with a 3/4"-5 threaded top, which are commonly available in the US, Canada, Australia, and many other countries. If you are an overseas customer, we recommend ordering only our brush head with the connector and using a locally available telescopic pole.

The Extendable Bouldering Brush includes:

- Telescopic stick
- Brush head with big and small brush

Specifications

- SIZE: 1400-2280mm Length
- WEIGHT: 816 grams
- MATERIAL:
 - Stick: Steel & Plastic
 - Brush Head: Birch Plywood, Aluminum & Plastic
 - Brushes: Beech wood & Boar Hair

SKU: DWS-05

Bigger Hand Brush

deWoodstok's bigger hand brush is meant for brushing slopers crimps or elements up to your eye level. This brush is ideal for cleaning boulders, both indoors and outdoors, suitable for both private and commercial applications.

The bigger hand brush has undergone extensive testing to optimize the type, density, and length of the boar hair bristles, ensuring exceptional cleaning performance and durability. Its sturdy beech wood handle is built to withstand pressure, so it won't break while effectively cleaning holds.

Compact and easy to store in your boulder bag, this bouldering brush is an essential companion for the gym or for your next bouldering adventure!

For gym owners:

This item can be customized with a logo engraving of your bouldering gym. Contact us for more details!

Specifications

- SIZE: 250 x 30 x 26 mm
- WEIGHT: 66 grams
- MATERIAL: Beech wood & Boar Hair

SKU: DWS-07

Woodbord

deWoodstok's woodbord is a hangboard designed for climbers of all levels to increase or maintain finger strength. All holds are nicely rounded, ensuring comfort and reducing the risk of injury for your fingers. Made from certified bamboo, this innovative hangboard combines performance, aesthetic appeal, and sustainability.

Bamboo Benefits:

- Performance: The fibers of bamboo provide exceptional high friction while being gentle on the skin, making it ideal for effective training.
- Aesthetic Appeal: The natural color and grain texture of bamboo enhance any home or training space.
- Sustainability: Bamboo is a renewable resource that grows rapidly—up to 1 meter per day! After harvesting, the plant continues to thrive, eliminating the need for deforestation. Additionally, bamboo absorbs more carbon dioxide than all types of wood. This makes it a great choice for climbers who care about the environment.

Features:

- A large declining rim on top, perfect for warming up
- 4-finger pockets with depths of 13, 16, 20, 25, 30, and 35 mm
- 2-finger pockets with depths of 20 and 35 mm
- 4 stainless steel screws for wall mounting

Specifications

- SIZE: 590 x 148 x 40mm
- WEIGHT: 1900 grams
- MATERIAL: Bamboo & Stainless steel screws 5,0×90mm

DE WOODSTOK

Parts

SKU: DWS-02

Brush head

deWoodstok's brush head is part of our extendable bouldering brush and extendable bouldering brush XL, but can also be ordered separately. To attach the brush head to our XL stick or any other pole with a 3/4"-5 threaded top, our connector is required.

Features:

- Easy and quick angle adjustment for brushing holds in various positions
- A small and big brush designed for cleaning large slopers, small crimps, and pockets
- Premium boar hair brushes, backed by extensive bristle research
- Replaceable brushes
- Double the lifespan of the big brush by mounting it in reverse once one side is worn out

Worldwide Shipping

We ship our brushes worldwide. However, shipping the poles outside of Europe can be costly. That's why we designed our brush head with a connector to fit standard telescopic poles with a 3/4"-5 threaded top, which are commonly available in the US, Canada, Australia, and many other countries. If you are an overseas customer, we recommend ordering only our brush head with the connector and using a locally available telescopic pole.

The Brush head includes:

- One big and one small brush

Specifications

- SIZE: 340 x 160 x 58mm (boxed),
- WEIGHT: 282 grams
- MATERIAL:
 - Brush Head: Birch Plywood, Aluminum & Plastic
 - Brushes: Beech wood & Boar Hair

SKU: DWS-08

Connector

deWoodstok's connector is designed to attach the extendable stick XL or any other 3/4"-5 threaded pole to the brush head. It is compatible with most poles available in the US, Canada, Australia, and many other countries.

Features:

- Easy Attachment: Simply screw the connector onto the threaded top to fit the brush head.
- Secure Fit: Two buttons on the connector prevent the brush head from coming loose during use.
- Enhanced Connection: The knurled ring ensures a stable and reliable connection to the pole.

Specifications

- SIZE: 131mm x Ø33mm, 3/4-5 Thread
- WEIGHT: 75 grams
- MATERIAL: Glass Fiber Reinforced Nylon

SKU: DWS-03

Big Brush

deWoodstok's big brush is specially developed for cleaning larger boulder holds, both indoors and outdoors. Designed to fit on deWoodstok's brush head, this brush features an optimal surface area of premium boar hair bristles, allowing you to apply sufficient pressure while providing ample cleaning coverage for slopers, wall surfaces, and elements. Its sturdy design ensures it can withstand intensive use, and its performance and durability have been reliably demonstrated over the years. The big brush has a symmetrical layout, enabling you to double its lifespan by mounting it in reverse once one side is worn out. Whether you're at the gym or out in Fontainebleau, this brush will help you send your project!

Specifications

- SIZE: 106 x 43 x 36mm
- WEIGHT: 72 grams
- MATERIAL: Beech wood & Boar Hair

SKU: DWS-04

Small Brush

deWoodstok's small brush is perfect for both bouldering and rock climbing, whether indoors or outdoors. Specifically designed to fit deWoodstok's brush head, this brush can also be conveniently used as a hand brush in your chalk bag. Featuring a compact surface area of boar hair bristles, it excels at cleaning crimps and pockets that are hard to reach with larger brushes. Despite its size, this brush is sturdy enough to withstand the pressure needed for effective cleaning without breaking, and its performance and durability have proven themselves over the years. Mounted on our brush head or stowed away in your boulder bag, this brush is an indispensable companion for your gym sessions or your next bouldering adventure!

Specifications

- SIZE: 180 x 15 x 21 mm
- WEIGHT: 20 grams
- MATERIAL: Beech wood & Boar Hair

SKU: DWS-12

Set of Bolts

Lost a bolt on your brush head or just want a set of spare ones? These M5x30mm ISO 7380-1 A2 bolts are used to fix the big and small brush to the brush head. Four bolts are required to mount both brushes, but this set contains five bolts, giving you one extra. Ensure your gear is always ready for your next bouldering session!

Specifications

- SIZE: 30mm x Ø5 mm
- WEIGHT: 25 grams
- MATERIAL: Stainless steel A2

SKU: DWS-09

Extendable Stick XL

deWoodstok's extendable stick XL is built for intense commercial use in bouldering gyms and competitions. This sturdy telescopic stick features a button for quick and easy height adjustment. It extends from 135 cm to 240 cm (without the brush head), ensuring you can comfortably reach climbing holds up to 4.5 m high, the legal maximum height for indoor bouldering. To attach it to our brush head, the included connector is required. The 3/4"-5 threaded top of the extendable stick XL is similar to those found on most poles available in the US, Canada, Australia, and many other countries.

Specifications

- SIZE: 1350-2400mm Length x Ø32mm
- WEIGHT: 1000 grams
- MATERIAL:
 - Stick: Aluminum & Glass Fiber Reinforced Nylon
 - Connector: Glass Fiber Reinforced Nylon

SKU: DWS-06

Extendable Stick

deWoodstok's extendable stick is perfect for taking along in your crash pad on every bouldering trip. This telescopic stick can be adjusted in height by turning to lock it securely in place. It extends from 114 cm to 202 cm (without the brush head), providing sufficient reach for nearly any climbing hold that needs brushing outdoors. Featuring a conical top, it fits directly into deWoodstok's brush head and prevents it from coming loose with its two buttons.

Specifications

- SIZE: 1140 - 2020mm Length x Ø30mm
- WEIGHT: 534 grams
- MATERIAL: Steel & Plastic
